

Scanner (film and/or flatbed)

PC Workstation (Windows)  
CREW TaskGen or CREW Hotfolder Client  
Graphx RasterPlus  
Graphx PackagePlus  
Other Applications (Photoshop, Word, etc.)

High-Speed CREW Task Server  
Computer

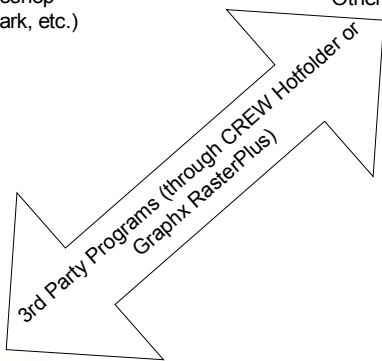

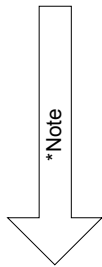

Macintosh computer  
 Adobe Photoshop  
 CREW Plug-In for Adobe Photoshop  
 Other Applications (Illustrator, Quark, etc.)

PC Workstation (Windows)  
 CREW Task Generator  
 Other Applications (Photoshop, Word, etc.)

Scanner (film and/or flatbed)

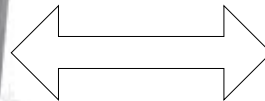

PC Computer / Workstation (Windows)  
 CREW Hotfolder Client  
 Graphx RasterPlus  
 Graphx PackagePlus  
 (this could be on the same PC workstation  
 as above in smaller scale installations)

High-Speed CREW Task Server Computer

Mileca

\*Note: To communicate between Mac and PC, additional software must be used. (PC Maclan, DAVE, or use the "Server" version of Windows on the PC computer)

1. 3rd-Party Windows Programs that are not designed to be used with CREW.

Use "File-->Print" network printer interface to RasterPlus, or the Image Hotfolder interface to RasterPlus

2. 3rd-Party Macintosh Programs that are not designed to be used with CREW.

Use "File-->Print" network interface to RasterPlus, or the Image Hotfolder interface to RasterPlus. Additional software required to communicate between Mac and PC

3. 3rd-Party programs that are designed for the older JC-FPCL style communication with Job Controller 2.x.

Use the CREW Hotfolder Client to communicate with CREW

4. 3rd-Party Programs (Mac or PC) that are designed to work directly with CREW can connect directly to CREW Task Server

5. ANY imaging program (PC or Mac) that outputs raster image files (TIFF, TGA, JPG, etc.)

PC Computer (Windows)  
**Graphx RasterPlus**  
Graphx PackagePlus

(This could be running on the same computer as the other applications)

PC Computer (Windows)  
**CREW Hotfolder Client**

(This could be running on the same computer as the other applications)

PC Computer (Windows)  
**CREW Task Generator**  
(manual creation of batches)

(This could be running on the same computer as the other applications)

Mileca with HSCTS Computer, Netprinter 812, or Netprinter Digital Station  
**CREW Task Server**
